SUMMARY

Third-year Computer Science and Engineering student at MIT ADT University with a strong interest in **Data Analytics and Business Intelligence**. Skilled in **Python, SQL, PostgreSQL, Power BI, and Microsoft Excel**, with experience in **database management, data processing, and developing data-driven dashboards**. Applied analytical thinking to purchasing data through **ProcureIQ**, a procurement intelligence platform designed to identify price variations and potential cost-saving opportunities. Seeking a Data Analyst internship to apply analytical and technical skills to real-world business problems.

WORK EXPERIENCE

Software Development Engineering Intern — **Heddle** (formerly BuildShot) | June 2026 – Aug 2026

- Worked with **PostgreSQL and Supabase** to develop and optimize **database-backed workflows for transactional records and user credit ledgers.**
- Implemented **data persistence** and **workflow recovery mechanisms** using durable pipeline ledgers and transactional outbox patterns.
- Developed scheduling and booking workflows using **Next.js, React, and TypeScript**, handling availability, slot allocation, and cancellations.
- Investigated application issues and supported performance optimization through **debugging, caching, and Cloudflare CDN configuration.**

PRODUCTS

Kairos - Cognitive Life Management Platform Link

PCCOE HackMatrix

- Built a **unified platform combining habit tracking, personal finance, journaling, and productivity analytics.**
- Focused on **simplifying multiple workflows** into one coherent user experience.
- Next.js, React, MongoDB, Supabase, Gemini API

EcoPulse AI - Data-Driven Software For Farmers Link

- Technologies: **Figma, UI/UX Design, Web Technologies like Next.js, Node.js etc**
- Designed **dashboard layouts and information architecture to present complex information in a clear, accessible format.**
- Created responsive interfaces with a focus on **visual hierarchy, usability, and effective information presentation.**

ProcureIQ - B2B Procurement Intelligence Platform Link

- Technologies: **PostgreSQL, Node.js, Express.js, Interactive Dashboards**
- Designed and structured purchasing transaction data using **PostgreSQL relational database** design to support efficient data storage and analysis.
- Developed **price variance analysis** workflows to identify pricing inconsistencies, track price fluctuations, and uncover potential cost-saving opportunities.
- Built interactive dashboards to visualize procurement data, highlight purchasing trends, and help users make informed business decisions.
- Integrated AI-assisted insights to interpret purchasing patterns, summarize key findings, and guide users toward areas requiring further analysis.

SKILLS

- **Data Analytics:** Data Analysis, Data Cleaning, Data Processing, Exploratory Data Analysis (EDA), Data Interpretation, Trend Analysis
- **Programming & Querying:** Python, SQL, Java, Data Manipulation, SQL Joins, Subqueries, Aggregate Functions
- **Business Intelligence:** Microsoft Power BI, Microsoft Excel, Interactive Dashboards, KPI Reporting, Data Visualization
- **Databases:** PostgreSQL, MySQL, MongoDB, Supabase, Relational Database Design, Data Modeling
- **Data & Reporting:** Purchasing Data Analysis, Price Variance Analysis
- **Tools & Design:** Git, GitHub, Figma, UI/UX Design
- **Additional Technical Skills:** JavaScript, TypeScript, React, Next.js, Node.js, Express.js, REST APIs
- **Core Computer Science:** Database Management Systems (DBMS), Operating Systems, Computer Networking

ACHIEVEMENTS & LEADERSHIP

- Top 7 Finalist - **MIT-ADT AI Grand Challenge 2026**

Selected among the top 7 finalists for developing and presenting an AI-driven solution as part of the university's AI Grand Challenge.

- 1st Place - **VIT Software Hackathon**

Secured first place as part of a team by contributing to the development and presentation of a software solution under hackathon constraints.

- Design team Member - **Cloud Computing Club, MIT ADT University**

Contribute to the club's visual communication and design requirements, supporting clear and engaging presentation of technical activities and initiatives.

- Design team Member - **CodeChef, MIT ADT University**

Support the club's design-related activities by helping create visually consistent materials for coding events, announcements, and student engagement.

EDUCATION

Bachelor of Technology in Computer Science and Engineering ~ 8.09 CGPA

MIT Art, Design and Technology University
Aug 2024 - Oct 2028
